SUMMARY

Data Ops executive with strong quantitative background and hands-on experience in Python, SQL, statistics, and machine learning. Skilled in data analysis, performing EDA, Feature Engineering developing predictive models, and building dashboards.

EDUCATION

- **PG Diploma in Big Data Analytics (CDAC Mumbai)** Feb 2025 - Aug 2025
 - Ministry of Electronics and IT Govt of India
- **Masters of Computer Applications (MCA, SPPU)** Sep 2022 - Jun 2024
 - Institute of Management Studies, Ahilyanagar
- **Bachelor of Science (BSc Mathematics, SPPU)** Aug 2019 - Jun 2022
 - Pemraj Sarda College, Ahilyanagar

TECHNICAL SKILLS

- **Programming:** Python (Pandas, NumPy, Scikit-learn, PyTorch), SQL
- **Data Science:** EDA, Feature Engineering, Statistical Analysis, Hypothesis Testing
- **Machine Learning:** Classification, Clustering, Forecasting, recommendation systems
- **Big Data Technologies:** Hadoop, Spark, Kafka
- **Visualization & Reporting:** Power BI, DAX, Tableau, GCP, Excel

PROJECTS

Olist Ecom Analysis [link](#) July 2025

- Handled **1M+ e-commerce records** to extract customer trends, product performance, and sales.
- Used **EDA, feature engineering, clustering**, and forecasting models (SARIMA, Prophet) to optimize delivery performance.
- Built a **BERT-based sentiment model** using Hugging Face for understanding customer review.
- Designed an interactive **Power BI dashboard** with DAX KPIs for executive reporting.
- Automated data cleaning + model scripts using **GitHub Actions**.
- Deployed model using Flask on AWS SageMaker

EXPERIENCE & ACHIEVEMENTS

- **BCG Data Science Virtual Internship** [link](#) Sep 2025
 - Conducted **customer churn analysis** using Python (Pandas, NumPy).
 - Engineered and optimized ML models achieving **50% recall**, focusing on practical business constraints.
- **Accenture Data Analytics Virtual Internship** [link](#) Dec 2024
 - Performed **requirements gathering, data cleaning, and data modeling** for analytics use cases.
 - Created **PowerPoint presentations** to clearly communicate insights to non-technical stakeholders.

CERTIFICATES

- Completed hands-on labs on **AWS EC2, S3, IAM, Lambda, and SageMaker**
- **Complete Data Science, ML, Deep Learning, NLP Bootcamp | Udemy**
- **Microsoft:** Data Analytics Bootcamp(Excel, SQL, Power BI)
- **IMS:** Basic to Advanced DBMS
